Sichen Jin (Eunhyang Kim)

Home: https://chenehk.github.io/
Email: galaxybob@snu.ac.kr

Education

Seoul National University   09/2013 - 01/2018
B.Sc., Computer Science & Engineering

Employment

Samsung Research, Korea   03/2018 -
AI Researcher, Speech Intelligence Team, Global AI Center

IBM, Korea   12/2017 - 01/2018
Intern, Watson Delivery Engineer

Infosys, India   03/2017 - 06/2017
Research Intern, Question Answering

Projects

Spoken Keyword Spotting with Tiny Models   2023 - present
1. Created a more efficient audio-text joint embedding space by aligning inputs of the two modalities on-the-fly.
2. Refined the training objective to learn both embeddings and alignments simultaneously.

Internal Language Model Estimation for Speech Recognition Models   2022
1. Estimated the internal language model by leveraging different subnetworks in ASR models.
2. Experimented with methods to bias the ASR model using text-only data, and discovered that the subnetwork intended to convey linguistic information wasn't trained as expected.

Full-stack Automatic Speech Recognition Engineering for Samsung Bixby   2018 - 2022
1. Implemented and trained large-scale automatic speech recognition models (Python, C++, Java).
2. Tackled problems for commercialization such as model compression, quantization, inference-time language model integration, named entity correction, long-form speech recognition, etc.
3. Implemented, trained the auxiliary language model for ASR and refined the integration method.

Question Answering Based on Similar QA Pairs in the Database   03/2017 - 06/2017
1. Worked on similarity search between the input query and the QA pairs in the database.

Teaching & Mentoring

Mentor, Samsung Winter Internship   2020
Best Project Prize

TA, Programming Practice   2017

Honors & Awards

Employee of the Year, Samsung Electronics, Korea   2022

Full Scholarship for all semesters at Seoul National University   2013–2018

Invited Talk

Qatar Women in Data Science, QCRI, Qatar   11/2021
Topic: Real-World Deployment of End-to-End Speech Recognition [video]

Skills

Programming: Python (Machine Learning Frameworks), C++, Java

Language: Fluent in Korean, Chinese and English

Soft Skills: Leadership, Creativity, Independence, Problem-solving, Communication Skills
